

Table 1: Summary Statistics

Variable	Mean	SD
Panel A: Quality outcome variables		
QM 401	15.001	8.801
QM 404	6.229	4.864
QM 406	1.586	2.121
QM 407	2.486	3.237
QM 410	3.384	2.838
QM 419	14.306	9.287
QM 434	1.551	2.043
QM 452	20.394	10.269
QM 405	48.322	18.117
QM 451	17.840	11.059
QM 471	71.761	13.720
QM 453	7.793	5.259
Panel B: Staffing and control variables		
RN HPRD	0.422	0.299
LPN HPRD	0.795	0.316
CNA HPRD	2.092	0.533
Total HPRD	3.309	0.773
Government (dummy)	0.101	0.301
Non-profit (dummy)	0.170	0.376
Chain affiliation (dummy)	0.549	0.498
Beds	109.0	57.8
Occupancy rate (%)	76.6	15.4
% Medicare	13.3	12.3
% Medicaid	60.7	20.4
Acuity quartile 2 (state-quarter)	0.249	0.433
Acuity quartile 3 (state-quarter)	0.248	0.432
Acuity quartile 4 (state-quarter)	0.252	0.434

Notes: The unit of observation is facility-quarter. QM denotes a CMS quality metric. When included, RN, LPN, and CNA denote registered nurses, licensed practical nurses, and certified nursing assistants, respectively. HPRD denotes hours per resident day. Occupancy rate is the ratio of residents to certified beds (percent). % Medicare and % Medicaid are the shares of residents covered by Medicare and Medicaid, respectively. Government and Non-profit are ownership-type indicator variables (for-profit omitted category). Chain affiliation is an indicator for membership in a multi-facility chain. Acuity quartiles are state-quarter quartiles of resident acuity (case-mix) with quartile 1 omitted. Rows = 208,657; Facilities = 7,768; Treated facilities = 1,588; Period = 2017Q1–2024Q2; Average quarters per facility = 26.9.
